

CMRT Policy:

OEM Production values the safety and legality of the products and accessories we sell.

Because armed groups are often involved in or even controlling the mining of ore, child labor, sexual abuse and other human rights issues arise, so forth are in the Democratic Republic of the Congo and its neighboring countries, including Angola, Burundi, Central African Republic, Republic of Congo, Rwanda The main minerals mined in Anda, Sudan, Tanzania, Uganda and Zambia: gold (Au), coltan (Ta), wolframite (W) and tin (Sn), which are defined as "conflict minerals" (Conflict Minerals).

OEM Production will not actively cooperate with suppliers involved in the sale and purchase of conflict minerals, or use conflict minerals in products. OEM Production will continue to implement this action to ensure that conflict minerals do not appear in the supply chain, and requires suppliers to take corresponding actions. Successfully removing conflict minerals from our supply chain requires strong teamwork, and OEM Production has agreed to work with our suppliers on this topic.

Please understand that this project is still a work in progress. OEM Production agrees to continuously monitor and improve its supply chain, and further commits to cessation of the use of any of the above-mentioned minerals, whether suspected or confirmed, upon becoming aware of or notified of any misuse of the minerals.
